

Reference number: IV-SB-0025-2026 **Published:** 20.04.2026
Start date (earliest): Earliest possible, limited for two years **Salary:** 15.08 euros/hour
Full/Part-time: 40 / 60 / 80 hours per month) **Application deadline:** 11.05.2026

Student assistant (40 / 60 / 80 hours per month)

Faculty IV - Electrical Engineering and Computer Science, BIFOLD - Management von Data Science Prozessen

About us

The DEEM Lab (<https://deem.berlin>) conducts research at the intersection of data engineering and machine learning. Our goal is to develop efficient data systems for AI and machine learning applications that are easy to use while simultaneously guaranteeing the fundamental rights of users (such as the "right to be forgotten").

Your responsibility

We are looking for someone to support our group with building web and mobile applications for demonstrating our research prototypes, with a special focus on AI-driven chat-, voice- and video-based interfaces. The applications will evolve around various use cases, such as cleaning, integrating and validating multimodal data for healthcare scenarios, or steering agentic systems to assist domain experts in highly regulated environments such as hiring or credit scoring. The demonstrations will be part of presentations for national and international visitors and scientific guests, as well as in local events such as the "Lange Nacht der Wissenschaften".

- Support for application development (60%)
- Support for design and optimization of user interfaces and user experience (30%)
- Support for testing and deployment (10%)

Your profile

Required criteria:

- Strong knowledge of machine learning and AI
- Strong proficiency in Python
- Experience with the libraries PyTorch, scikit-learn, pandas or langchain / DSPy
- Experience with developing LLM-based applications, with chat-, voice-, or video-based interfaces

- Experience with graphic design and the Python-based web stack
- Good knowledge of German and/or English required; willingness to acquire the respective missing language skills

How to apply

Party responsible for specialist area / point of contact for job posting:

Prof. Dr. Sebastian Schelter - sekr@deem.tu-berlin.de

Period of employment: immediately, limited for two years

Apply to: sekr@deem.tu-berlin.de

Please submit your written application including cover letter, your CV, certificate of enrollment, and where applicable, current transcript of records, with the reference number to the place of employment indicated above. In the interest of promoting equality opportunities for men and women, applications from women with suitable qualifications are particularly encouraged.
